100% Pure Beeswax tart melts shaped like little bees for use in tart burners where one does not wish to use wicked candles. Perfect for guest rooms and nurseries. Pure beeswax has many beneficial properties, ionizes the air and burns totally clean!

NATURAL & NON-TOXIC: Beeswax is the only known wax that can release negative ions that attach themselves to the toxins in our air. Making them ideal for purifying and leaving the air around us cleaner which is great for use around children, people with allergies, chemical sensitivities and asthma.

Burning beeswax produces negative ions that don't cover up odors but **actually clean your air of odors, pollens, smoke, dust, dust mites, and other allergens and hazards**. This is the ONLY wax with this magical quality.

Naturally honey scented as Mother Nature intended.

Box of 8 beeswax melts.
